

Multiple Benefits of Stormwater Capture and Reuse Projects

Host: Water Environment Federation

Co-Sponsors: Environmental Protection Agency, National Municipal Stormwater Alliance, WaterReuse Association, the Johnson Foundation at Wingspread

Wednesday, June 9, 2021, 2:00 – 4:00 Eastern Daylight Time

PURPOSE

This is the third in a series of web-based events associated with the national Water Reuse Action Plan (WRAP) Action Item 3.3., which focuses on opportunities and challenges related to urban stormwater capture and use. This webcast will highlight stormwater capture and reuse projects from around the country. This free webcast explores how these projects can be designed to provide benefit far beyond the management of stormwater. Speakers will discuss the drivers for these projects, life cycle considerations, and lessons learned.

AGENDA

- 2:00-2:10** **Welcome and Introductions**
Virginia Roach, Chair, WEF Stormwater Committee
Dave Smith, USEPA
